

# Vingefang

*"Vingefang bring a clarity to their music that seems to demand the word "delightful." Whether it is their own compositions or a journey through the music of France, Denmark, Sweden and Brazil, they make it all their own."*

*by CF - RootsWorld Magazine*

A magical and contemporary feeling is created as the two young multi-instrumentalists unfold their musical talent on the new album, which draws on the ever-changing world of folk music. Vingefang has their own bright, easily recognizable, Nordic sound. The artists take you on an exciting journey from Nordic tones, across vibrant French poetry, to Brazilian rhythms. Song titles such as 'Medmennesket', 'Njia Yangu', 'La Valse Sans Fins' and 'Girando na Renda' showcase the duo's appreciation of multicultural influences. Their use of instruments reflects the duo's creativity: the violin as a sort of guitar, the vocals as a groovy bass figure and the body as a percussion instrument. Most of the music has been composed by the duo themselves.
